**Claim 1 (cancelled)**

**Claim 2 (cancelled)**

**Claim 3 (cancelled)**

**Claim 4 (cancelled)**

**Claim 5 (cancelled)**

**Claim 6 (cancelled)**

**Claim 7 (cancelled)**

**Claim 8 (cancelled)**

**Claim 9 (cancelled)**

**Claim 10 (cancelled)**

**Claim 11 (cancelled)**

**Claim 12 (cancelled)**

**Claim 13 (cancelled)**

**Claim 14 (currently amended):** A fold open display box, the box being sized to receive a video cassette and having a planar face ~~and being approximately 10 inches in length and 1.5 inch in breadth~~, the box being for displaying a toy, the box comprising:

a first ~~panel~~ section ~~being about 10 inches in length and about 5 inches in width~~  
~~and~~ having a first cavity, said first cavity having a cut out portion in a planar face of the panel;

an at least partially transparent window attached over the cut out portion of the first cavity;

wherein said first section is about 10 x 5 x 0.5 inches;

a second ~~panel~~ section having a second cavity;

wherein said second section is about 10 x 5 x 1 inches;

wherein at least one of the first and the second cavity is designed to receive a toy;

a toy placed in at least one of the first and second cavities that is displayed through the at least partially transparent window, the toy being of a pressable material; and

~~an at least partially transparent window attached over the cut out portion of the first cavity; and~~

~~a wall connected by a first hinge to the first panel, the wall being about 1 inch in depth.~~

a wall connecting said first section to said second section;

wherein said wall is connected by a first hinge to the first section.

**Claim 15 (cancelled)**

**Claim 16 (currently amended):** The fold open display box for displaying a toy according to claim 14, wherein the toy is insertable or removable when either the first or the second ~~panel~~ section is turned about an axis passing through the hinge.

**Claim 17 (currently amended):** The fold open display box for displaying a toy according to claim 14, wherein the wall is connected by a second hinge to the second ~~panel~~ section.

**Claim 18 (currently amended):** The fold open display box for displaying a toy according to claim 14, wherein the first ~~panel~~ section includes a cutout of a rigid material, the rigid material being positioned between the at least partially transparent window and the first ~~panel~~ section.

**Claim 19 (original):** The fold open display box for displaying a toy according to claim 14, further including a cut out portion in the second cavity.

**Claim 20 (currently amended):** The fold open display box for displaying a toy according to claim ~~19~~14, further including an at least partially transparent window attached over the cut out portion of the second cavity.

**Claim 21 (currently amended):** The fold open display box for displaying a toy according to claim ~~17~~ 14, wherein the wall is turned about an axis passing through the second hinge.

**Claim 22 (previously presented):** The fold open display box for displaying a toy according to claim 14, further including a cut out portion in the wall, the cut out portion conforming generally with the profile of the toy, such profile being different to the outer perimeter of the box.

**Claim 23 (currently amended):** The fold open display box for displaying a toy according to claim ~~22~~ 14, further including an at least partially transparent window attached over the cut out portion of the wall.

**Claim 24 (original):** The fold open display box for displaying a toy according to claim 14, wherein the at least partially transparent window is made of flexible plastic.

**Claim 25 (cancelled)**

**Claim 27 (cancelled)**

**Claim 28 (cancelled)**

**Claim 29 (cancelled)**

**Claim 30 (cancelled)**

**Claim 31 (cancelled)**

**Claim 32 (cancelled)**

**Claim 33 (cancelled)**

**Claim 34 (cancelled)**

**Claim 35 (cancelled)**

**Claim 36 (cancelled)**

**Claim 37 (cancelled)**

**Claim 38 (cancelled)**

**Claim 39 (previously presented):** The fold open display box for displaying a toy according to claim 14 including a mesh material over the cut out portion.

**Claim 40 (cancelled)**

**Claim 41 (previously presented):** The fold open display box for displaying a toy according to claim 14 wherein the window is cut out to match the profile, such profile being different to the outer perimeter of the box.

**Claim 42 (cancelled)**

**Claim 43 (previously presented):** The fold open display box for displaying a toy according to claim 14 wherein the window is cut out to match the profile of the toy and wherein the toy includes a sound generator such that on depression of the toy a sound is generated.

**Claim 44 (cancelled)**

**Claim 45 (previously presented):** The fold open display box for displaying a toy according to claim 14 wherein the box includes a loudspeaker for generating sound related to a toy in the box.

**Claim 46 (cancelled)**
